

# Actuator ARM ProClick

The new silent actuator ARM ProClick is the optimal solution for the automatic control of the return admixture. Thanks to the AFRISO ProClick adapter system, it can be easily mounted to the mixing valve in a matter of seconds: Snap on – done. This simplicity is also available for switching between automatic and man-

ual mode – it is sufficient to press a button. The new actuator excels with smart features such as integrated protection against blocking of the mixing valve or maintenance-free operation for a long service life.

Mounting in a matter of seconds without tools: Simply snap the actuator onto the mixer, done. Dismounting at the push of a button.

Colour LEDs indicate direction of rotation, ideal for use in darker environments.

Simply press a button:  
Fast switching between automatic mode and manual mode.

A rotary knob with scale allows for fast and accurate adjustment of the mixing valve.

Full flexibility with regard to mounting direction:  
The plate features scales on both sides with "0 to 10" or "10 to 0" and can be turned, depending on the direction of flow.

## Advantages - your benefits

- Compact, silent actuator with an angle of rotation of 90°
- With ProClick adapter system suitable for AFRISO mixing valves DN 25 and DN 32
- High reliability: An integrated protection unit keeps the actuator and mixing valve from blocking for a long service life
