

Bourdon tube pressure gauge HZ for heating/plumbing

Benefits

- With self-sealing connection thread (NG 50 and 63) for fast mounting
- Red maximum mark on dial
- Adjustable red reference pointer and green operation segment on window
- Corrosion-resistant housing

Application

For gaseous and liquid media which are not highly viscous, do not crystallise and do not attack copper alloys and EPDM.
! For measuring gas or vapour, observe the table "Selection Criteria as per EN 837-2" (see appendix)!
